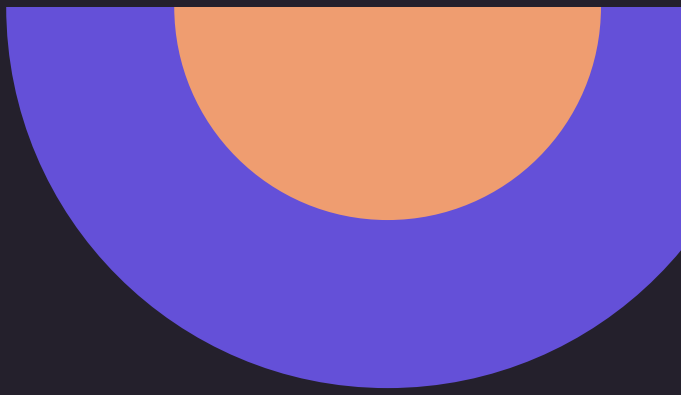
WELCOME / E-COMMERCE EXPERIENCE

A better digital chapter starts here.



PREPARED ESPECIALLY FOR

Forma Studio

Home & living / E-commerce experience
Version 03 / Working document, subject to final approval

01 / THE BIG PICTURE

Your ambition.
Our starting point.

Welcome, Forma Studio. We are bringing strategy, craft, and a clear delivery process to your e-commerce experience project.

01 What we understand

Build a clear, considered digital experience that turns interest into action.

02 Where we can make a difference

The mobile navigation overlaps the main call to action.

03 The voice we will protect

Warm, considered, and quietly confident.

02 / THE ROAD AHEAD

Less guesswork.
More forward motion.

01 Discover & align

Confirm goals, audience, existing assets, and success measures. Your video call shapes the brief.

02 Shape the direction

Build a focused project plan with pages, features, content needs, and agreed milestones.

03 Make & refine

Map the catalog, scaffold the storefront, and refine product and collection experiences.

04 Check & hand over

Review links, responsive layouts, copy, and performance. Final human approval comes before client delivery or publication.

03 / MAKE IT YOURS

A strong start is a shared effort.

01 What to bring

Product CSV, collection structure, brand assets, photography, shipping preferences, and access via collaborator invitations.

02 Your project notes

The client wants a clearer customer journey, a confident visual direction, and a simple handoff. Prioritize mobile usability and a focused first release.

03 How we stay in sync

Weekly progress updates cover completed work, upcoming milestones, and any decisions we need from you. One shared project history keeps the work traceable.

NEXT STEP
